

Join us / **Civil Engineer**

McVeigh

McVeigh Consultants is an integrated architectural and engineering firm providing design and project management services for urban development, building and infrastructure projects.

We are typically appointed as lead consultants or project managers on our client's projects. Information and design decisions flow smoothly, no frustrating delays or re-work due to outside influences, just work with your fellow team members to resolve all design issues.

We use the latest design and modelling software including REVIT, AutoCAD, 12D, XP Storm, MUSIC and PC Drain to produce our documents and designs.

Our core values are simple, our people enjoy their work, work as teams on great projects for good clients and add value to their own lives, our client's projects and our business.

We currently have an opportunity for a Civil Engineer to join our integrated team and work on a variety of projects.

You will report to an Engineering Team Leader with responsibilities which will include leading and completing civil engineering designs and drawings for the built environment, including a wide range of development types including residential, commercial, education, retail and industrial sectors.

You will be the go-to person for civil engineering within our team and be mentored by our Managing Director, Principal Civil Engineer, Michael McVeigh. You will help manage standards and design resources and will have the opportunity to train and mentor bright young members of our team as we grow.

Must have:

- 5+ years postgraduate experience**
- Familiarity with SEQ Local Authority standards**
- An open mind, curiosity and appreciation for all fields of engineering and architecture**

When you join our team you will enjoy working in a bright, modern office with a great team. You will enjoy a close working relationship with your team leader and will be challenged to attain professional and personal growth. You will be paid well for your contribution to our activities and will receive a significant training allowance in addition to your salary package.

Skills and experience are important, but a fit between individuals and our organisation is our No.1 selection criteria.

If this sounds like you, please contact us immediately!
