## Senior Associate Civil Engineer

# McVeigh

McVeigh Consultants is an integrated architectural and engineering firm providing design and project management services for urban development, building and infrastructure projects.

We are typically appointed as lead consultants or project managers on our client's projects. Information and design decisions flow smoothly, no frustrating delays or re-work due to outside influences, just work with your fellow team members to resolve all design issues.

We use the latest design and modelling software including REVIT, AutoCAD, 12D, XP Storm, MUSIC and PC Drain to produce our documents and designs.

Our core values are simple, our people enjoy their work, work as teams on great projects for good clients and add value to their own lives, our client's projects and our business.

**We currently have an opportunity for a Senior Associate Civil Engineer to join our growing team and take over the Civil Engineering function from our Managing Director.**

Typical civil engineering works for our projects include the following: Stormwater studies including hydrology modelling, hydraulics modelling, stormwater quality modelling, and preparation of Stormwater Management Plans; Roadworks, sewer design and water supply; Earthworks, filling and pre-loading; Flexible and rigid pavements; Sewer reticulation and pump stations; Water reticulation and storage; Co-ordination of other services such as power, communications and gas

You will be the go-to person for civil engineering within our team. You will supervise our standards and design resources and will have the opportunity to train and mentor bright young members of our team as we grow.

**Must have:**

- 15+ years postgraduate experience**
- Familiarity with SEQ Local Authority standards**
- An open mind, curiosity and appreciation for all fields of engineering and architecture**

When you join our team you will enjoy working in a bright, modern office with an great team. You will enjoy a close working relationship with your team leader and will be challenged to attain professional and personal growth. You will be paid well for your contribution to our activities and will receive a significant training allowance in addition to your salary package.

Skills and experience are important, but a fit between individuals and our organisation is our No.1 selection criteria.

If this sounds like you, please contact us immediately!
