

recruiting now / **Civil Designer**

Join Us /

Are you ready to join our team?

You will work in an integrated team of architects, engineers and technicians with responsibilities in the existing civil engineering design team designing and delivering civil engineering designs and drawings for the built environment in a wide range of development areas such as residential, commercial, retail, land development and industrial sectors.

Your Skills

You will have a minimum of 5 years experience in civil design, have outstanding proficiency with AutoCAD and are familiar with contemporary construction techniques and software, including 12D, and PCDrain. Your ability to meet project deadlines whilst maintaining a high level of attention to detail will be valuable to your success, accompanied by your superior communication skills, both verbal and written.

This Role

This role is delivery focused with an opportunity to work collaboratively within multidisciplinary teams. With a strong eye for detail, a curious mind and a motivated and organised approach to your work, you will be working in a team with a focus on producing well resolved, time efficient, quality solutions for our clients.

Your Career

When you join our team you will enjoy working in a modern office with a great, energetic team. You will enjoy a close working relationship with your team leader, and will be challenged to attain professional and personal growth. You will receive significant training in areas of interest to you and that will benefit the firm and will be paid well for your contribution to our practice and activities.

While skills and experience are important, a fit between individuals and our organisational culture is our number one selection criteria. We base our corporate culture on the shared values of Design, Team, Client and Performance.

Want to know more or to apply for this great opportunity? Please email your CV and a Cover Letter to: recruit@mcveigh.com.au

McVeigh Consultants are a multi-disciplinary team providing design services for construction projects. Our core purpose is to enhance peoples' lives by improving the quality of the built and natural environment.

Our clients have come to rely on McVeigh designs being elegant, simple, fit for purpose and the most appropriate solution possible. We have a strong reputation for developing designs that cannot be beaten by other consultants.

We are typically appointed as lead consultants on our client's projects. Information and design decisions flow smoothly, no frustrating delays or re-work due to outside influences, just work with your fellow team members to resolve all design issues.

Our core values are simple; our people enjoy their work, work as teams on great projects for good clients and add value to their own lives, our client's projects and our business.
